## 1. Add an order set

Select "**Order Sets**"
from the menu

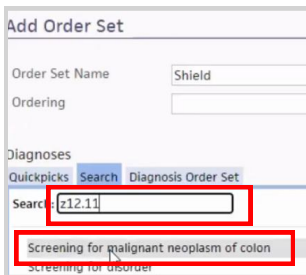

Navigate to "**My Order Sets**"
and click "**Add New**"

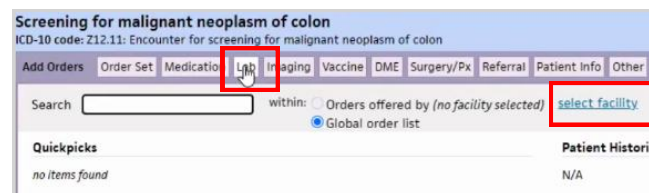

Enter "Shield" as the
"**Order Set Name**"

2. Setup the diagnosis and lab facility

Search for "**z12.11**" and
select "**Screening for
malignant neoplasm..**"

If that doesn't work, search for
"Screening for malignant neoplasm.."

Scroll down the page and click "**Lab**",
then click "**select facility**"

Search for Guardant Health
and select "**Guardant Health
INC**" in **Redwood City, CA**

3. Set the order defaults

Search for "**CRC**". Click
"**Shield...**" in the search results.
Then click "**Shield...**" at the
bottom of the results.

Select "**Medical Professional Consent**"
in "**Additional Information**".

If you draw blood in-office, select "**Office**",
click "**Document specimen**" in "**Specimen
source**" and select "**Blood venous**".

Scroll down to "**No
Diagnosis**" and
click "**Add**"

You can now quickly submit orders using your Shield order set!

Search for "**Shield**" in
Diagnoses & Orders and
select your **Shield** order set.
